

SUPERNOVA

LIMITED EDITION

LOTUS and ANEST IWATA.
Celebrating the partnership of LOTUS and ANEST IWATA,
two uncompromising brands both striving for perfection
in performance and finish.
Not only in the spray booth,
but also on the fastest racetracks in the world.

ANEST IWATA Corporation

Yokohama - JAPAN

www.anest-iwata.co.jp

Introducing the LOTUS 3-Eleven Limited Edition Supernova. Celebrating more than 15 years of partnership between ANEST IWATA and LOTUS.

The Supernova Series, known for its superior pre-atomization technology, is available in two different versions:

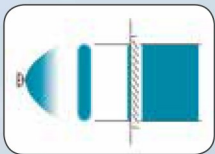

- **WS-400 evo** (Compliant model)
- **LS-400 entech** (HVLP model)

LV (pre-atomization) technology explained

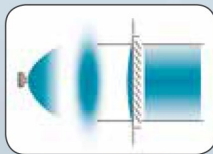

Characterized by very fine atomization and low air inlet pressure; LV Technology creates a rounded pattern that directs material back toward the surface, reducing overspray and increasing transfer efficiency.

Your benefits at a glance

- Less air consumption and less overspray
- High transfer efficiency
- Large, uniform and flat yet soft spray pattern

LV (pre-atomization) fan pattern

Standard fan pattern

Whats in the box

This limited, numbered edition of our premium spray gun series is delivered in a customized waterproof and solvent vapor resistant case equipped with:

- 600ml 3M PPS starter set
- Air pressure regulator
- Complete cleaning kit
- Credit card sized certificate of authenticity
- *White cup pictured on flyer not included*
